REVENUE IMPACT ^{1/}

This bill is expected to increase other funds allocated to the Department of Public Safety to support the activities of the Illegal Immigration Enforcement Unit by \$1,951,041 in FY 2013-14.

Explanation

Section 9 of this bill levies a fee on money transmission or wire transfers of money by a transmitter located in this state to a location outside of the United States. The proposed fee is five dollars for wire transfers of less than five hundred dollars or a fee of one percent of the amount transferred for wire transfers over five hundred dollars. This fee would take effect on January 1, 2012 with collections being remitted to the Department of Revenue beginning in February. We expect that money transmitters' would remit \$3,902,082 for the five months of collections in FY 2011-12. This estimate is based on Oklahoma's experience with their wire transmitter fee which is very similar to the proposed South Carolina fee. We expect that 50% of the fee, or \$1,951,041, will be claimed as refundable income tax credits on returns filed during 2013. Processing of the April and extended returns will continue through 2013. We anticipate that the Department of Revenue will not finalize accounting for the income tax credits taken until early in FY 2013-14. The DOR will at that time transfer the estimated net fee collections of \$1,951,041 to the Department of Public Safety to support the activities of the Illegal Immigration Enforcement Unit. When this bill is fully implemented over an entire state fiscal year, we expect that fees remitted will total \$9,365,000 with \$4,682,500 being claimed as income tax credits. Over an entire fiscal year this would increase other funds allocated to the Department of Public Safety to support the activities of the Illegal Immigration Enforcement Unit by \$4,682,500. Any Sections of the bill not specifically addressed above are not expected to have an impact on state or local revenues.
